This is the advantage resulting from the combination of the CASH AND MUTUAL PRINCIPLE. ARTHUR HERBERT.

This Company commenced issuing Policies against loss or damage by fire, on the 13th day of March, 1854, since which time over seven thousand seven hundred persons have insured and become members of the Company, and over seventy thousand dollars have been paid for losses. Having increased our business during the past year, we feel grateful for the liberal patronage bestowed upon the Company thus far, and for its flattering prospects of future usefulness. The Directors hope and believe, that, by prudence, caution, and a rigid system of economy, they will establish for this Company a reputation for cheapness and safety not surpassed by any Company in the U. States. All differences in settlement of losses, may be determined by three disinterested arbitrators of the County where such loss happened, to be mutually chosen by the insured and the Company.

S. SANDS' EXCELSIOR MANIPULATED

GUANO No. 1. I HAVE engaged in the Manipulation of GU ANOS, and am now ready to supply the Far-mers and Planters of the United States with an article which I consider superior to anything of the kind which has yet been produced, having an unusual amount I believe, of the valuable ingredients in this article. During my editorship of the "American Farmer," with which until within a few months, I have been connected for 25 years, I have most emphatically urged upon the Farmers and Planters that the mixture of the Ammoniaeal Gu-ano (Peruvian) with the Phosphatic (Mexican, Columbian, &c.,) was the best and cheapest appli eation to most crops they could apply. general views upon this subject, I refer to the pages of the American Farmer; and also, to my cir-cular just issued (and which will be forwarded to any one desiring it) in which this view is ably sus tained by Dr. Bickell, Analytical Chemist, of this

THE EXCELSIOR MANIPULATED GUANO WILL BE PUT UP IN BAGS AND MARKED S. Sands' Excelsior Manipulated Guano, AND WILL CONTAIN

91 to 10 per cent. Ammonia and 45 to 50 pe cent. Phosphates. It is intended that it shall reach the highest of these standards, but some allowance is desired to be made, to meet any possible short-coming which

by accident may be made. The Excelsior No. 1 I believe equal to the best Peruvian Guano on any erop to which that article is applied, and will sur-pass it as improvement to land. The Agricultural public have been much imposed upon by all sorts of professed fertilizers, but I have no hesitation in saying, that I believe this compound will be found the "Ne Plus Ultra" of anything of the kind which the "Ne Plus Citra" of anything of the Audit has yet been produced; and with this confidence in its value, I have agreed to introduce it to the public.

MISCELLANEOUS READING

FRAUDS OPEN LIFE INSURANCE CO'S. The London Insurance Gazette for the present month, devotes ten columns to an exposition of a series of frauds which have been practised in France upon several of the companies by Mr. Alfred Walden, a London Solicitor, who was sent to France to ferret out the perpetrators. The editor of the Gazette says, "that neither the brilliant genius of Eugene Sue, nor the wondrous inventive powers of Alexander Dumas, has yet produced anything equal to the romantic truths contained in Mr. Walden's extraordinary report. We present our readers with a broad outline prevents a transfer of the whole report to our columns.

The life of Mathurin Tandeaud was insur

ed in four English companies (the "British Commercial," "Gresham," "Achilles" and 'National Alliance,") for 215,000 francs. His death occurred soon after the insurance had been effected, a circumstance which led to an investigation of the facts by Mr Wal den. This Mathurin Tandeaud was represented to the companies as in the enjoyment of robust health and possesssing a good in come. His death was stated in the physician's certificate to have been sudden and entirely unexpected. Mr. Walden ascertained beyond a doubt that Tandeaud has been in the poorest circumstances, utterly unable to pay one hundred and forty pounds a year for premiums, and had died of con sumption from which he had long been sufom the day of sale, the deferred payments to be fering. The agent of the English companies at Limoges, in France, was a M. Barraud through whom false certificates of health had been obtained, and it subsequently appeared that he, with others, was concerned n a system of fraudulently obtaining policies from English companies on the lives of persons suffering from incurable diseases, for the benefit of certain apparently respectable persons who were implicated in the swindle. Among these delinquents was a M. Henri Descourieres, who is stated to be one of the most influential men in Limoges, and possessed of landed and other property, and in every way above suspicion. M. Barraud, the agent of the companies, is half brother to a French Marquis, upon whose estate Tandeaud lived. The other conspirators were Dr. Meilh ac, whose certificates assisted the plot, and who has since committed snicide; M. David, an inspector of the "Gresham;" M. Feval, agent of the "Gresham" in Limoges, and one La porte, who seems to have been the active

man in procuring the various certificates. Tandeaud was simply a farm laborer and had no knowledge of the use which was being made of his name. Mr. Walden ascertained that there was a subscription on foot for the relief of the family of this man whose life was insured for 215,000 francs. The same parties had insured in the Gresham one Louis Felix, a beggar, for 25,000 francs. At the time of the insurance, Felix was a patient in the hospital at Limoges; the poor wretch died within forty days after the policy was issued, and the £1,000 were paid to Descour ieres. They also insured in the Gresham, the life of one Antoine Voison, a soldier die charged from his regiment for an incurable disease. At the time of the insurance he had been given over by the physicians, and Certificates of robust health were obtained in his case, by the substitution of another per son by David for the real Voison, the phy sician certifying, not being in the plot.

There were policies also upon two or three persons in Limoges, who were not expected to survive the proceedings before the tribunal; each one of these persons had an incurable disorder. Two policies were taken out, amounting to 150,000 francs, on the life of one Bourdarias, a hawker, then suffering from cancer in the neck; but he died before the policies reached Limoges from London. These frauds were successfully fastened upon Mayor's Office in the city of Alexandria, Virginia, on Saturday, the 22d day of October, 1859, at 12 o'clock, M., the following property:

No. 1. A LOT OF GROUND, with the and Feval and David severally to fifteen the parties mentioned, after a trial of five months. The four policies on the life of Tan

deaud were declared void. We cannot present our readers with the details of this romance of crime, for reasons we have stated. We are in hopes that some of the insurance journals will publish Mr. to Fairfax street 82 feet 8 inches, more or less, to Walden's report in extenso, that American companies may profit by the experience of their cotemporaries on the other side of the water. Mr. Walden, who defeated this gang of thieves, appears to have executed the trust reposed in him with great tact, shrewness, and an intimate knowledge of what constitu tes secret service. His reputation, already well established from a success in previous cases, has become the property, as it were, of the life companies of London, and it is pro-Prince William, Va., on the Orange & Alexandria | posed to present him a suitable testimonial or the sagacity, integrity and fearlessness displayed in ferreting out these stupendous frauds. - Boston Post.
